

Our associates will ensure the tool works properly before you leave the store. If you experience issues with the tool while completing your project, simply bring it back to the Tool Rental Center to get a replacement. If you purchase Damage Protection at the time of your rental, you are not responsible for repair costs for tools that break due to normal use.

Our contractor-grade Bull Float open pores when setting concrete and draw any excess water to the surface. Conveniently, this float can reach beyond normal length using several handle sections.
